JADUGUDA MINES

Annexure-1  
Page 1 of 1

Public Tender No. : PUR / 2 / 21 / 0637 / 628  
Item : 2<sup>nd</sup> Eluent Tank

-----

SL.NO.	MATERIAL DESCRIPTION	QUANTITY
1	Manufacture & supply of 2 <sup>nd</sup> Eluent tank as per drawing no. UCI/M-833/C & its cover as per drawing no. UCI/M-836/C	02 Nos

Note:

- 1) Only site fabrication & lining will be acceptable and no outside part fabrication will be allowed. Fabrication and lining should be done at existing site of UCIL.
- 2) All consumables & raw material will be in contractor's scope. No consumables like Oxygen, LPG, electrode etc will be supplied by UCIL. Only electrical point will be given for welding machine.
- 3) Only shot blasting will be allowed for surface preparation before rubber lining.
- 4) Party has to dismantle the old one before fabrication and lining of new one. Hence price quoted should be on lump sum basis. No extra cost will be provided for the same.
- 5) Party has to arrange portable boiler for the steaming purpose. No steam point will be given by UCIL.
- 6) Since installation work is in running plant, so party has to plan in advance to avoid loss of man day. However we will try to handover the site at our earliest.
- 7) Minimum material to be used is each tank should be indicated in offer (as given below) & material should be supplied through stores department:

<u>Type of material</u>	<u>Qty</u>
a) MS Plate 6mm	MT / size
b) MS Plate 8mm	MT / size
c) MS Angle 50	Kg
d) MS Angle 75	Kg
e) Nozzle, Bolt & Nut	Kg
f) Unvalcanised rubber	Kg
g) Rubber Solution	Ltrs
h) Welding Electrode (MS)	Kg & Make of Electrode
i) Oxygen Cylinder	Kg
j) DA / LPG	Kg
k) MS Plate 5mm for roof cover	Kg

- 8) Any other or extra material if required shall be supplied free of cost by the successful bidders.
